## EXPERIENCE

---

### LEAD WEB DEVELOPER • DELANEY COMPUTER SERVICES, INC. 11/2016 - CURRENT

- Implement agile approach for website development that streamlines the process of site planning, wireframe mock ups, technical development, and site launch.
- Demonstrate self-confidence, innovation and enthusiasm while leading the development team through each step of the website production process.
- Work directly with Senior Designer to develop innovative UX features and translate PSD mockups into pixel perfect web pages.

### FREELANCE • 02/2016 - CURRENT

- The subjects of these sites range from music groups to startup companies and includes my own personal portfolio as well.
- Based on the client's needs I have taken many unique approaches in creating the perfect sites for each of my clients.
- The sites span from basic four page sites to much larger sites with custom build content management systems.
